**White Wines from Northern Italy**

-

*Encompassing the vast regions of Piedmont in the west to Friuli in the east, all of these whites benefit from the advantage of both cooling mountain influences and the warming effect of both coastal and inland waters. The resultant wines therefore balance ripeness with persistent acidity.*

#### White Wines from Central Italy

–

*The central plains offer fertile soils for richer grape varieties, producing whites with stone fruit character, hints of almond and more mineral notes when closer to the coast. These wines are made for fish, seafood and pasta dishes.*

## White Wines from Southern Italy, Sardinia & Sicily

–

*Local grape varieties thrive in a wide range of soils across this varied region. The magical islands of Sicily and Sardinia produce wines with unique character, balancing exotic fruit with sea influence. Planting at altitude in Campania & Sicilia allows for the more aromatic grape varieties to slowly develop whilst harnessing their refreshing acidity.*

## Orange Wines

–

*Originally created by Radikon and Gravner from the Friuli Venezia Giulia region, the term ‘orange wine’ refers to the colour produced from white grape varieties when they have spent time macerating with the grape skins. As a result, the wines have a richer structure and a more powerful style, which are the perfect companion to food, especially with Risotto.*

2011 Vitovska Bianco AA Zidarich	<i>Friuli</i>	74
2006 Ribolla Gialla 'Anfora' Gravner	<i>Friuli</i>	138

**Red Wines from Northern Italy**

-

*A variety of styles ranging from the elegant yet structured Nebbiolos in the north-west to rich and supple Amarones in the Veneto, whilst international varietals in the Friuli benefit from a freshness borne of the cooler climate. They all share a common juicy acidity that makes them perfect to accompany food.*

**Red Wines from Central Italy**

-

*The famed region of Tuscany is Sangiovese's spiritual home producing elegant red fruit-dominant styles with subtle oak-ageing. Abruzzo is now synonymous with the Montepulciano grape: dark fruit and smoky undertones combine in these rounded reds.*

**Red Wines from Southern Italy, Sardinia and Sicily**

–

*Often neglected in favour of more fashionable regions, here local grape varieties and varied soil composition offer a real sense of terroir and rusticity. The heat of the south is combated by clever planting at altitude, allowing the grapes to ripen and mature slowly. The wines balance concentration of flavour with a level of freshness to pair with a variety of food.*
