## SPARKLING

A glass of something fizzy is an ideal apéritif, clearing and refreshing the palate for the meal ahead. However don't overlook its ability to make an excellent and versatile partner to food. Our 'house' sparkling is English from Coates & Seely in Hampshire, it is moreish and oozes class. We are just as proud of our long association with Billecart-Salmon and have fine collection of their vintage wines.

### Australia

We are supporters of Australian wine and it is the only 'New World' (a misleading term, they have a rich history of wine making back to the middle of the nineteenth century) to have major representation in the cellar. A new breed of sensitive winemakers are letting the country's huge diversity shine.

## Burgundy

It is a peculiar anomaly that while Chardonnay from the rest of the world is difficult to sell, from Burgundy (and all but one of the below is from the grape) it is hard for us to keep up with demand. The best are made in tiny quantities (and that applies across the board, not just for the expensive wines), so our policy of buying in advance helps to secure sufficient stocks.

## Rhône

White accounts for only a tiny proportion of the Rhône's production, yet we are rather fond of it. They are intense wines, best served alongside food and rather like good reds benefit from time in a decanter.

## Germany

German wine is drunk in copious volumes by anyone in the wine trade, yet remains extremely hard to sell to the wider UK public (other countries have long got over their Riesling issues). We urge you to try the below, but if you do not like any sugar we have marked those that are dry and we mean dry – these are rapier-like Rieslings, über refreshment in a glass.

### Australia

We have long been fans of Australian red and a few years ago started to treat the best like we would the classics from Europe and lay them down in the cellar. We have older vintages from Domaine A, Ben Glaetzer and Dalwhinnie vintages you are unlikely to find anywhere else. Like the whites these are made with an eye on elegance and purity.

## Bordeaux

Claret has always been the heart of the Rex Whistler's cellar and while we can no longer offer Latour 1986 at £38 a half bottle (from a 2001 wine list – those were the days) now has never been a better time to be a Bordeaux lover – quality, across the board, is at an all time high. We have made particular effort to source a wide range of halves, a fine way to exercise restraint or sample a variety of Châteaux.

## Burgundy

Burgundy is a great passion of ours and the restaurant's policy of buying in advance and cellaring pays dividend in this region. Unlike Bordeaux high quality Burgundy is made in tiny quantities. If you want to drink mature examples buying it on release and laying it down is essential – older wines are so rarely offered on the open market.

Although often lumped together the north and south Rhône are very distinct areas. In the north reds are made solely from the Syrah grape and often bear a much closer resemblance to the perfumed wines of Burgundy than to their more burly cousins to the south.
